Purpose Of Assessment

The purpose of this assessment is to evaluate the compliance of CMU-Research with the standards set by the Rwanda National Cyber Security Authority (NCSA).

Scope And Methodology

The scope of this assessment covers all aspects of CMU-Research's operations that fall under the purview of the Rwanda-NCSA standards. The methodology involves a thorough review of CMU-Research's policies, procedures, and controls against the Rwanda-NCSA standards.

Assessment Period

The assessment was conducted over a period of three months, from January to March 2022.

High-Level Overview

CMU-Research has demonstrated an impressive commitment to cybersecurity, with full compliance in all 9 control areas of the Rwanda-NCSA standards.

Key Findings

All controls are in place and effectively implemented, demonstrating a robust cybersecurity framework.

Detailed Analysis By Control Family

Each control family under the Rwanda-NCSA standards was thoroughly examined. CMU-Research showed a high level of compliance across all control families.

Strengths And Weaknesses

CMU-Research's strengths lie in its comprehensive cybersecurity policies and procedures, and its commitment to continuous improvement. No weaknesses were identified during the assessment.

Risk Categories And Levels

The risk assessment revealed that CMU-Research has effectively managed and mitigated all identified risks related to cybersecurity.

Potential Business Impact

With the current level of compliance, the potential business impact of cybersecurity risks is minimal.

Critical Issues

No critical issues were identified during the assessment.

Major Concerns

No major concerns were identified during the assessment.

Minor Observations

No minor observations were identified during the assessment.

Identified Gaps

No compliance gaps were identified during the assessment.

Impact Analysis

With no identified compliance gaps, there is no impact on CMU-Research's operations or its compliance with the Rwanda-NCSA standards.

Strategic Recommendations

CMU-Research should continue its commitment to cybersecurity and the continuous improvement of its policies and procedures.

Tactical Improvements

No tactical improvements are necessary at this time.

Implementation Roadmap

With full compliance achieved, the focus should be on maintaining this level of compliance and staying updated with any changes to the Rwanda-NCSA standards.

Immediate Actions

No immediate actions are necessary at this time.

Short-Term Goals

CMU-Research should continue monitoring its cybersecurity controls and procedures to ensure continued compliance.

Long-Term Strategy

The long-term strategy should include ongoing risk assessments, regular reviews of policies and procedures, and continuous training and awareness for staff to ensure continued compliance with the Rwanda-NCSA standards.
